

ATLANTIC METALS

ENGINEERING BRASS SOLUTIONS THAT COMBINE
PRECISION MANUFACTURING, INDUSTRIAL
RELIABILITY, AND LONG-TERM PERFORMANCE.

SINCE 1993

Atlantic Metals manufactures premium brass products designed to support modern industrial applications with consistency, efficiency, and dependable quality.

Backed by advanced manufacturing infrastructure and process-focused operations, we deliver engineered solutions tailored to meet evolving industry requirements across domestic and global markets.

PRODUCTION EFFICIENCY

Optimized manufacturing processes designed for stable workflow management and smooth industrial operations.

25+

Years of combined manufacturing and industrial process experience.

OPERATIONAL INFRASTRUCTURE

Modern production setup equipped to support continuous manufacturing and precision-focused output.

1000+

Production batches successfully manufactured across multiple applications.

ENGINEERING SUPPORT

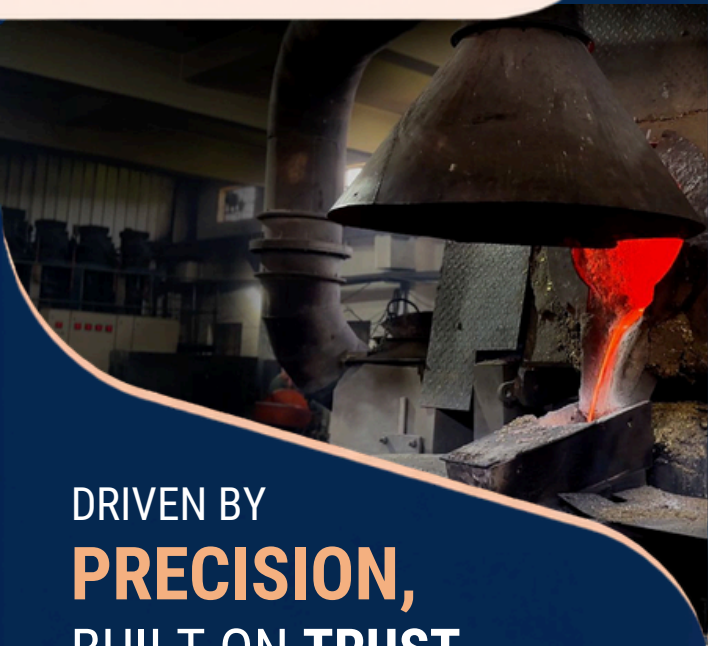

Focused on practical manufacturing solutions tailored for evolving industrial requirements.

500+

Custom-developed brass components manufactured with application-specific precision.

ABOUT US

Driven By Precision, Built On Trust

Who We Are

Atlantic Metals is a trusted manufacturer and exporter of precision brass components, serving reputed organizations across India and international markets. We specialize in the manufacturing of brass inserts, brass sanitary parts, brass bathroom fittings, CPVC inserts, and other customized brass components developed according to customer drawings, specifications, and application requirements. With years of manufacturing expertise and a strong commitment to quality, we have established a reliable reputation in the brass industry for delivering durable, precision-engineered products with consistent performance.

Located in Jamnagar, Gujarat - the hub of the brass industry - our manufacturing facility is equipped with advanced machinery, modern production systems, and stringent quality control processes to ensure superior product standards at every stage of production. Supported by a highly experienced and dedicated team of professionals, we focus on delivering customer-centric solutions with efficiency, precision, and timely execution.

Our manufacturing philosophy is centered around operational excellence, advanced engineering, and delivering products that industries can rely on every day.

WHY CHOOSE US

Our strength lies in combining manufacturing efficiency with practical engineering knowledge, enabling us to deliver consistent products tailored to evolving industrial requirements.

Our Mission

Precision With Purpose

To deliver precision-engineered brass products with reliable quality, efficient manufacturing, and customer-focused solutions.

Our Vision

Engineering Future Excellence.

To become a trusted global name in brass manufacturing through innovation, quality, and industrial excellence.

BRASS EXTRUSION

Brass Extrusion Rods

Atlantic Metals manufactures and exports premium-quality Brass Extrusion Rods with excellent dimensional accuracy, high strength, corrosion resistance, and superior machinability.

Key Features

- High Dimensional Accuracy
- Excellent Corrosion Resistance
- Superior Machinability

Brass Billet

Atlantic Metals manufactures and exports high-quality Brass Billets engineered for excellent strength, uniform composition, and superior performance. Suitable for extrusion, forging, machining, and various industrial applications.

Key Features

- High Purity & Uniform Composition
- Excellent Strength & Durability
- Superior Hot Workability

Brass Ingot

We Atlantic Metals take immense pride to introduce ourselves as one of the trustworthy manufacturers, suppliers and exporters of Brass Billet.

Key Features

- Red Brass / Gun Metal
- Manganese Bronze
- Silicon Bronze

OUR PRODUCT RANGE

Brass Bathroom CP Fittings

We are one of the leading names in the industry to provide a wide range of CP Brass Compression Fittings. Manufactured using optimum quality brass obtained from our trustworthy vendors, these compression fittings are made available in different specifications to fulfill diverse customer requirements.

Brass HVAC and Distributor Parts

Our Brass Distributors are manufactured from premium-quality brass to ensure excellent durability, corrosion resistance, and reliable fluid distribution in plumbing, sanitary, gas, and industrial piping systems.

Brass Elbow

Our Brass Elbows are precision-engineered to provide a secure 90° or 45° directional change in plumbing, hydraulic, pneumatic, gas, and industrial piping systems. Manufactured from premium-quality brass, these elbows offer excellent sealing performance, high mechanical strength, and superior resistance to corrosion.

Brass Fittings

Our Brass Fittings are manufactured from premium-grade brass to provide secure, leak-proof, and durable connections for plumbing, gas, hydraulic, pneumatic, and industrial piping systems. Engineered with precision CNC machining, these fittings ensure excellent dimensional accuracy, superior strength, and long-lasting performance in demanding applications.

Brass Studs

Our Brass Studs are precision-manufactured from high-quality brass to provide strong, reliable, and durable fastening solutions for electrical, automotive, construction, and industrial applications. Designed for secure assembly and excellent mechanical performance, these brass studs offer superior corrosion resistance, accurate threading, and long service life.

Brass Valves

Our Brass Valves are manufactured from premium-quality brass to provide reliable flow control for plumbing, water supply, gas, HVAC, pneumatic, and industrial piping systems. Designed for smooth operation, leak-proof sealing, and long service life, these valves are precision-engineered to ensure optimum performance under varying pressure and temperature conditions.

Bush

Our Bush components are manufactured with precision to provide reliable thread conversion, secure pipe connections, and efficient fitting compatibility across plumbing, hydraulic, pneumatic, and industrial systems. Engineered for high performance, these bushes ensure a tight fit, minimize leakage, and enhance the overall efficiency of piping installations.

Earthing Accessories

Our Earthing Accessories are precision-manufactured to provide safe, efficient, and long-lasting grounding solutions for electrical installations. Designed to ensure excellent electrical conductivity and secure connections, these accessories are widely used in residential, commercial, industrial, power distribution, and telecommunication applications.

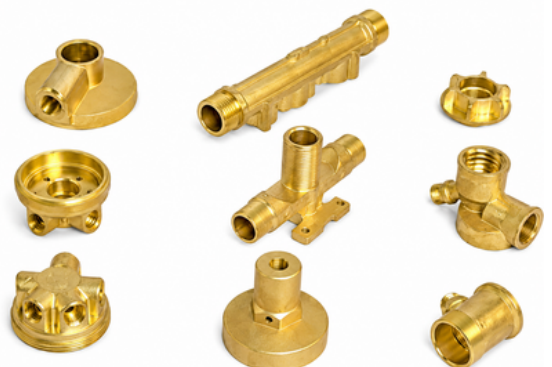

Brass Nut Bolt

Our Brass Nut Bolts are engineered for dependable fastening in applications where strength, precision, and corrosion resistance are essential. Manufactured using premium-grade brass and advanced machining technology, these fasteners ensure a perfect fit, smooth thread engagement, and long-lasting performance.

Brass Forging & Casting Parts

We are specialized in Manufacturing of Forging & Casting Parts. We can Manufacture any type of Forging and casting Components, Forging Parts, Forging Fittings, Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary

ATLANTIC

Brass Threaded Insert

Our Brass Threaded Inserts are designed to reinforce threaded connections and improve the durability of fastening points in plastic, wood, and composite components. Manufactured from premium-quality brass with precision machining, these inserts ensure secure thread engagement, high holding strength, and excellent resistance to wear during repeated assembly and disassembly.

Copper Gas Component

Our Copper Gas Components are engineered to deliver dependable performance in gas control and fuel distribution systems where safety and precision are critical. Manufactured using high-quality copper and advanced production techniques, these components offer excellent thermal conductivity, dimensional accuracy, and reliable sealing.

Hexnut

Our Hex Nuts are manufactured to provide strong, reliable, and long-lasting fastening solutions across a variety of engineering and industrial applications. Designed for perfect compatibility with threaded bolts and studs, these nuts ensure secure assembly, uniform clamping force, and easy installation.

Brass PPR & CPVC Inserts

We are manufacturing wide range of Brass PPR Inserts in different size, material, thread and type and exporting it to various countries. Our comprehensive range of Brass PPR Inserts include male ppr insert, female ppr insert and more.

ATLANTIC

METALS

Precision Components

Our Precision Components are manufactured with advanced CNC machining and precision engineering techniques to deliver exceptional accuracy, consistency, and performance across diverse industrial applications. Designed to meet stringent dimensional tolerances, these components are widely used in automotive, electrical, electronics, aerospace, telecommunications, medical, plumbing, and engineering industries.

S S Pipe

Our S.S. Pipes are manufactured from premium-grade stainless steel to provide superior strength, excellent corrosion resistance, and long-lasting performance in demanding environments. Designed for efficient fluid and gas transportation, these pipes are widely used in plumbing, construction, food processing, pharmaceuticals, chemical plants, oil & gas, and industrial applications.
